

# GRAZIER'S ESSENTIALS™ POULTRY NATURE-LYTES™

These specific formulations are quality blends consisting of chelated trace elements, macro-minerals, optimum levels of vitamins, prebiotics, probiotics, enzymes, kelp, selected amino acids and other UGF's (Unidentified Growth Factors).

**POULTRY NATURE-LYTES™** are a wonderful supplement for chickens, turkeys, ducks and game birds deriving their "green factors" from pasture and sunlight.

Healthy and strong **egg production**, vigorous and vital **meat** bird feed conversions and optimal immune function can be expected when incorporating **POULTRY NATURE-LYTES™** Pre-Mixes.

**Packaging:** 50 lb (22.7 kg) Bag

# GRAZIER'S ESSENTIALS™ WHOLE HOG™ PRE-MIXES

The **GRAZIER'S ESSENTIALS™** formulations are based upon a need to supply swine raised on pastures with adequate macro and chelated micro elements, vitamins, enzymes, prebiotics, probiotics, vegetable charcoal, kelp and other UGF's (Unidentified Growth Factors).

**GRAZIER'S ESSENTIALS™ WHOLE HOG™** Premixes consist of 2 formulas, one for **sows** (gestating/lactating) and one for **growers/finishers**.

When **WHOLE HOG™** is fed to **gestating and lactating sows**, the animals tend to have more uniform litter sizes and weights as well as provide ample lactation to their offspring. **Growing and finishing** pigs tend to better utilize their feed and have the requisite nutritional essentials needed to generate and modulate adequate immunity.

**Packaging:** 50 lb (22.7 kg) Bag

**Warning:** For animal use only. Keep out of reach of children.
