

At Hiland Naturals, we care about your animals as if they were our own. As a rule, we won't sell you anything we would not feed our own animals. Because we believe that healthy feed leads to healthy animals, the ingredients we put into our feed mixes are wholesome and beneficial. You won't find harmful fillers or additives like medications.

You have our word on that.

A NOTE ABOUT NON G.M.O.

Our specialty at Hiland is our Non G.M.O. line. We prefer it above the rest because it affords us the flexibility needed to supply your animals with the best mix of feed, nutrients, and supplements available.

Hiland Naturals also carries a full line of minerals to complete the nutritional needs of your animals. We carry Dessert Dyna-Min, Live Earth, Redmond Salt, Diatomaceous Earth, Kelp, Probiotics, and much more.

- Beef - 12%

HORSE - 8%

*Specialty feeds upon request
with a one ton minimum.*

Greetings Pastured Poultry Producers,

We are excited to introduce our line of non-GMO feeds to pastured producers (we can also provide soy free and certified organic to those so inclined).

Our feeds are of the highest quality for a number of reasons:

- Every batch is tested for GMO and only non-GMO grains are accepted.
- All feeds are subjected to mold and mycotoxin assays for aflatoxin, zearalenone, vomitoxin and T-2 toxin.
- Only grains that meet USDA (minimum) test weights are purchased (e.g. corn equals 56 lbs. per bu). Test weight is an indicator of nutrient density—the higher the better.
- We use a blend of cereal diversity, not just corn and soy. Cereal diversity provides a better array of amino acids, fatty acids, minerals and vitamins.
- Our feeds are fortified with Grazier's Essentials™ Poultry Nature-Lytes™ pre-mixes formulated by Jerry Brunetti of Agri-Dynamics. These pre-mixes are of the highest quality, containing chelated macro and micro-elements, kelp, herbs, probiotics, enzymes and vitamins.

Our promise to you is that our feeds perform. We have customers throughout the Northeast, Midwest and South. We currently produce these feeds in Pennsylvania and Ohio with excellent trucking rates, and we expect production soon in Iowa and California.

Additionally, we handle the Agri-Dynamics line of the Grazier's Essentials™ which includes free choice pre-mixes for ruminants, poultry and swine.

If you have an interest in our feeds and/or mineral pre-mixes, contact us. You won't be disappointed. Wholesale inquiries are also welcome. Thank you for your time, and pleasant pasturing!

Naturally yours,
Daniel Masters
