GENERAL INFORMATION

This product is a bio-based non-ionic surfactant intended to be used as a wetting agent for water. It is not intended to be used as an adjuvant for herbicides.

Directions for Use:

Notice: Store at room temperature (40 to 80° F). Once concentrate is added to spray equipment, apply solutions within 24 hours.

Application: dilute with 40 gallons of water, apply 1-4 pints per acre. Apply to soil before irrigation or a 1-2" rainfall.

Condition of Sale/Warranty: Manufacturer's and Seller's obligation is limited to the replacement of products due to defective quality only. Neither Seller of Manufacturer shall be liable for any damages directly or consequently arising from the use of labeled products from Agri-Dynamics. All suggestions or directions made herein are based upon our experience and are believed to be accurate. No other guarantee or warranty is made or implied by contract, statute, common law, merchantability, fitness for a particular purpose or otherwise, as conditions and methods of the use of products herein described are variable (e.g. weather, etc), and beyond our control. This information and any products are provided on the conditions that the user will evaluate them for himself as well as any recommendations to determine their suitability for his own purposes before adoption. User/grower should contact a certified agronomist and/or relevant regulatory agency (e.g. State Dept of Agriculture, Extension Service, AAPFCO, Land Grant University, etc.) for their professional assessment on the use of such products, prior to use.
