

# Foliate-K™

This product is intended for use according to an approved organic system plan as a source of potassium and sulfur for crops..

## Guaranteed Analysis:

Soluble Potash (K <sub>2</sub> O) .....	18%
Sulfur (S) .....	2%

**Derived from:** Potassium sulfate, potassium chloride.

**Nonplant Food Ingredients:** Sea water concentrate, molasses (microbe food), fish hydrolysate, humic acids (2.0%), kelp (microbe food).

## Foliar and Drip Directions for Use:

**Important:** Use 50 mesh or larger screens on injection and spray nozzles.

**Notice:** Store above freezing (32°F/0°C) and below 90°F/32°C. Once concentrate is added to spray or drip tank, apply solution within 24 hours. This product can be tank mixed with most products. A bench test is strongly recommended.

**Dilution:** Dilute the following recommended amounts of product with 10 to 20 gallons of water. For Hay: 2-4 quarts/acre 10 days post cutting or tank mix 2 quarts/acre with Plant-Sure.

**For Fruits and Vegetables:** For transplants, frame building, and fruiting, apply weekly 1-2 quarts/acre as a split application between drip and foliar or consult with your crop consultant for recommendations.

Condition of Sale/Warranty: Manufacturer's and Seller's obligation is limited to the replacement of products due to defective quality only. Neither Seller of Manufacturer shall be liable for any damages directly or consequently arising from the use of this product. All suggestions or directions made herein are based upon our experience and are believed to be accurate. No other guarantee or warranty is made or implied by contract, statute, common law, merchantability, fitness for a particular purpose or otherwise, as conditions and methods of the use of products herein described are variable (e.g. weather, etc), and beyond our control. This information and any products are provided on the conditions that the user will evaluate them for himself as well as any recommendations to determine their suitability for his own purposes before adoption. User/grower should contact a certified agronomist and/or relevant regulatory agency (e.g. State Dept of Agriculture, Extension Service, AAPFCO, Land Grant University, etc.) for their professional assessment on the use of such products, prior to use.
